KASU JONESBORO FM 91.9

DEPARTMENT OF RADIO-TELEVISION
DRAWER BBBB
STATE UNIVERSITY, ARKANSAS 72467
TELEPHONE 501/972-3070 JONESBORO

July 25, 1980

Mr. Kermit Geary
R.D. 4, Box 321
Walnutport, PA 18088

Dear Mr. Geary:

This will confirm your reception of KASU from 2:50 to 3:00 p.m. CDT on July 17, 1980. We are certainly glad to hear from you, and pleased to know that we made it to your radio with the excellent properties you describe.

KASU is a 100,000 watt stereo station operated by the Radio-TV Department of Arkansas State University. The announcers you heard are students in our program here. The antenna is mounted on a 505' tower with a height above average terrain of roughly 600' (we are in the foothills of the Ozark Mountains here).

This seems to be a bumper year for FM skip, as yours is the third letter we have received from locations 400 miles or more distant. We are always pleased to hear from skip listeners, and hope you will be able to hear us again sometime.

All best wishes,

Doug Rogers
Assistant Chief Engineer
